CLIENT STORY

"We are our children's first teachers and sometimes we need some reassurance that we are doing a great job as well as needing assistance in how we can interact and guide our kids. At the end of the program not only was my son more confident with his social and fine motor skills, but I felt more confident in how I could help him learn more effectively in the future."

~ Vanessa Salinas, Active Minds parent

ANNIVERSARY

The mission of Community Resources for Children (CRC) is to provide resources for the early care and education of children in Napa County.

CRC promotes quality early learning and care for young children and envisions a future in which every parent and caregiver has access to the necessary resources and knowledge during the critical first years of life so that the children under their care can reach their full potential, succeed in life, and become contributing members of society.
